Introduction

What does it do?

This extension provides the responsive jQuery lightbox plugin Magnific Popup for images in content elements. It's planned to extend this extension to also open inline content with Magnific Popup.

For more information and some working examples of Magnific Popup visit <http://dimsemenov.com/plugins/magnific-popup/>

Credits

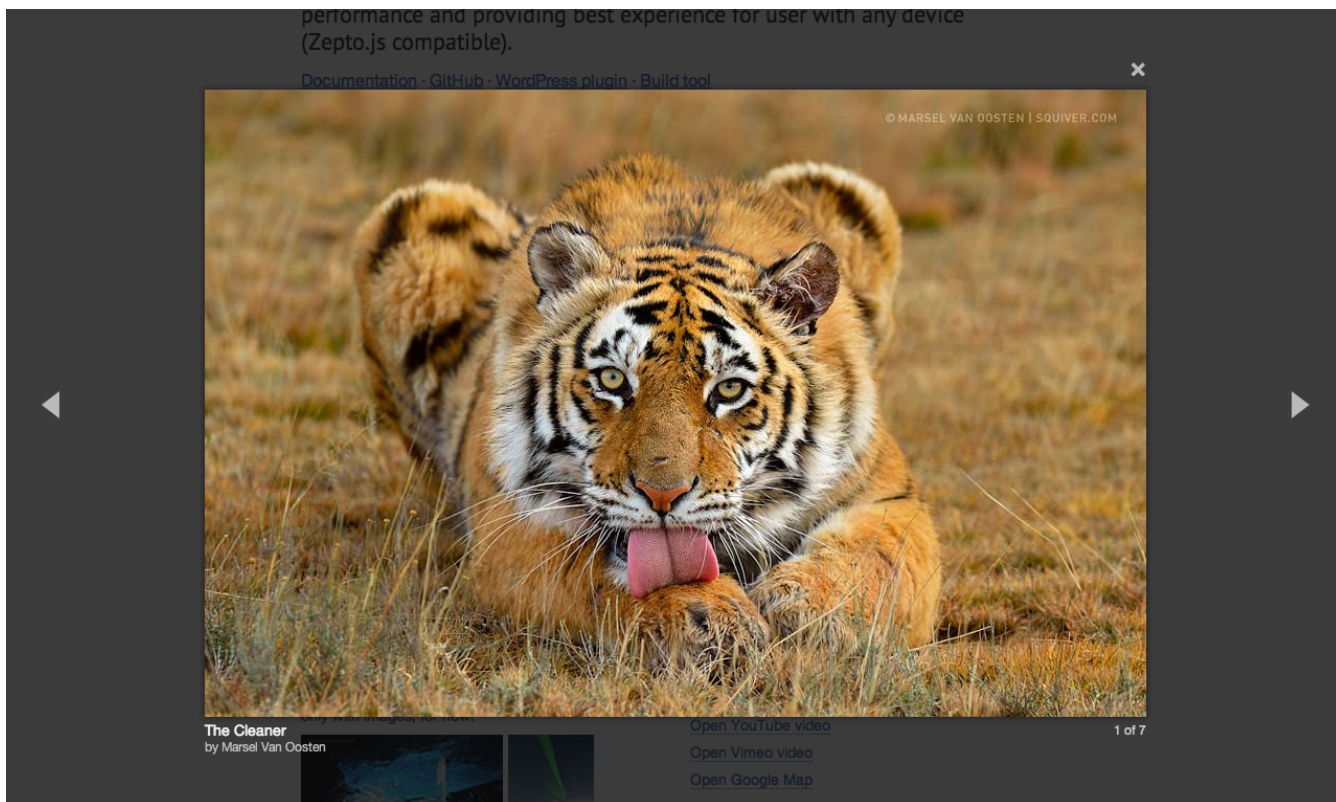

A special thanks goes to Dmitry Semenov who has written the fantastic Magnific Popup jQuery plugin.

His script is available under MIT license and is used within this extension under this license.

Contribute

Feel free to contribute to this extension within TYPO3 Forge: http://forge.typo3.org/projects/extension-jh_magnificpopup/

Screenshot

Magnific Popup gallery-view (Screenshot taken from <http://dimsemenov.com/plugins/magnific-popup/>)

Users manual

Create a content element "Images" or "Text & Images" as normal and set "Enlarge on Click".

Behavior

Enlarge on Click

☒ Enabled **Page Content** [76]

Using images in RTE with activated "Click to enlarge" is a second way to use Magnific Popup.

If you use `EXT:yag_theme_magnificpopup` the order of these both statics does not matter.

Now you may customize your extension with the Constant Editor:

Category

PLUGIN.JH_MAGNIFICPOPUP (15)

Magnific Popup

Enable gallery [plugin.tx_jhmagnificpopup.magnificpopup.gallery.enabled]
Enable gallery-view of Magnific Popup

1

Preload before [plugin.tx_jhmagnificpopup.magnificpopup.gallery.preload.before]
Preload x images before actual

1

Preload after [plugin.tx_jhmagnificpopup.magnificpopup.gallery.preload.after]
Preload x images after actual

2

navigateByImgClick [plugin.tx_jhmagnificpopup.magnificpopup.gallery.navigateByImgClick]
Enable 'navigate by image click'

1

Cursor [plugin.tx_jhmagnificpopup.magnificpopup.image.cursor]
